

Multinational Educational Center

JobCoachig 2012
First Project Meeting
Ruse, BG
30-Nov – 03-Dec-2012

Location

Our Purpose

- **The Missing Link**
 - Care centres / Support institutions – insufficient resources
 - LLP initiatives – potential for immense benefits
 - Playing our part – delivering the benefits, hassle free
- **Mission statement** – we strive to empower people with limited opportunities to live happy and fulfilling lives.

Our Model

- **Innovative Business Model**
 - Flexibility
 - Targeted expertise
 - Efficient use of resources
 - 4 permanent staff
 - 20+ part-time consultants allocated based on project demand
 - 300+ currently impacted trainees

Focus Areas

- Vocational Education & Training (VET)
- Unemployment issues
- Violence Prevention
- Battling Inequality
- Language Competencies
- Sustainability Issues
 - Renewable Energy Sources (RES)
 - Corporate Social Responsibility (CSR)

Scope of Work (1/2)

- **Nature of operations**
 - Mediator / Multiplier of results - focus on delivering the pure value
 - Skill session and training delivery
 - Innovation and Research
- **Primary partners (LdV)**
 - Care taking institutions
 - Support services – hot lines, child protection services, etc.
 - Job centres, recruiting agencies

Scope of Work (2/2)

➤ Project Experience

- Leonardo da Vinci
 - Pilot projects
 - Development of Innovation
 - Transfer of Innovation
 - Partnerships
- Grundtvig
 - Partnerships
 - Workshops
- Daphne III

➤ Current research

Team Project Experience

➤ WOMBACK

Topic: *Women returning to the labour market*

Programme: Leonardo da Vinci

Duration: 3 years

➤ ECMTFEE

Topic: European Curriculum for Methodological Training in the field of Environmental Education

Programme: Leonardo da Vinci

Duration: 2 years

➤ EMERGE

Topic: European Mobility Encouraging to Reinforce the Group of the Elderly

Programme: "Europe For Citizens" Programme

Duration: 1 year

Team Project Experience

➤ HANDMADE

Topic: *Training of craftsmen in SME's management*

Programme: Leonardo da Vinci – Pilot Project

Duration: 3 years

➤ Cr@fts-man

Topic: Transfer of training material for the management of crafts SMEs to e-learning

Programme: Leonardo da Vinci - TOI

Duration: 2 years

➤ NewsJob

Topic: development of transversal key competencies and "non-routine" skills

Programme: Leonardo da Vinci - DOI

Duration: 2 year

Team Project Experience

➤ B-Plan

Topic: *Build Personal Labour Acting in Net*

Programme: Leonardo da Vinci - MLP

Duration: 2 years

➤ EMDI

Topic: Integrating mentally disabled individuals into the labour market

Programme: Leonardo da Vinci - Partnerships

Duration: 2 years

➤ ADEWEP

Topic: adjustment of disabled employees to the work environment

Programme: Grundtvig - Partnership

Duration: 2 year

Team Project Experience

➤ LUE

Topic: *Language competencies for adult learners*

Programme: Grundtvig – Partnerships

Duration: 2 years

➤ DVADC

Topic: *Prevention of violence against disabled children*

Programme: Leonardo da Vinci - Partnerships

Duration: 2 years

➤ Stronger Children

Topic: innovative approaches to educating pre-school kids against the risks of violence and bullying

Programme: DAPHNE III

Duration: 2 year

Current Research & Innovation

➤ Innovation

- Add-on for photovoltaic panels that would increase efficiency by 30%+ (patent pending)

➤ Publications (full list in Appendix A)

➤ Research & Publications (being finalised)

- **CSR for developing a Better Social Europe**

Appendix A - Publications

- 3rd National Conference in RES. Presentation of Training in Renewable Energy Technologies
- 2. Over some opportunities to reduce the human influence over the environment through RES application and energy
- saving technology - "Thermoshield"
- 3. Methods for approximate assessment of the average annual power production by wind turbine.
- 4. "Microprocessor device for measurement and management in anemometric and wind energetic application"
- 5. The New Power-complex (Model for effective supply of autonomous electricity consumers separated from the grid)
- 6. Review and evaluation of the existing models and studies of geothermal energy use through earth-connected thermal pumps.
- 7. Identification of knowledge gaps in utilization of hydrogen cells potential for expansion of wind turbines and photovoltaic application
- 8. Review of the existing studies, information, models and researches in the field of RES
- 9. Model for direct use of solar radiation for enhancement of EE in Buildings Presented on 1st International Conference "EE in Construction" – Via Expo 26-27th February 2004

Appendix A - Publications

- 10. Construction of Anemometric station – complex of physics problems, demonstrating interdisciplinary relations of physics with meteorology and energetic, XXXII National Conference on Physics Training. MES № 63/03.02.2004.
- 11. Methods for evaluation of RES training necessity, XXXII National Conference on Physics Training. MES № 63/03.02.2004.
- 12. Methodology for Evaluation of training necessity. Human Resource Management. Burgas Free University. ISBN 954-9370-05-4
- 13. Training in Renewable Energy Technologies, Education and Training. Shumen University. ISBN 954-577-217-4
- 14. Electronic methods for anemometrics. Union of scientists in Bulgaria. Natural and humanitarian Science. ISSN 1311-9192

Appendix A - Publications

- 15. Some problems with the development of Business Plans. Union of scientists in Bulgaria. Natural and humanitarian Science. ISSN 1311-9192
- 16. Use of Physics experiments with Hand-Held technology. Union of scientists in Bulgaria. Natural and humanitarian Science. ISSN 1311-9192
- 17. Wind Characteristics in Sozopol. Metrology and Metrology Assurance 2004. ISBN 954-9725-89-8
- 18. A calibration method for electronic transformer in anemometer. Metrology and Metrology Assurance 2004. ISBN 954-9725-89-8
- 19. Total Quality Management in Education. 2nd International Balkan Education Congress. ISBN 975-374-065-4
- 20. Human relations in Teacher training. 2nd International Balkan Education Congress. ISBN 975-374-065-4
- 21. Tutoring and control in an Open and Distant Learning System. 2nd International Balkan Education Congress. ISBN 975-374-065-4
